

013 RECORDED COPY

1 Nov 78

NOTE FOR: Liaison Staff
C&R Staff

STAT THROUGH: FPH

I have learned that the copies of the "Notes from the Director" are not being sent routinely to our oversight committees. I would think that we should send them because they are unclassified and they may be misinterpreted as they go from mouth to media, and probably more importantly, it's a good way to fulfill our obligation of keeping the committees currently and fully informed. If you have contrary thoughts, please let me know.

STAT C&R: Can you give me a listing of those publications we routinely send to our oversight committees, e.g. update on regulations, prepared text of Director's speeches, etc., and finally, am I correct in assuming that  is our focal point officer for getting this done?
